

Join us at the Informix 11.7 Roadshow!

Dear Customers and Business Partners,

At the recent IBM Information on Demand Conference, IBM announced the latest in a continuing series of updates and enhancements to IBM Informix Dynamic Server -- version 11.7! To help you learn what this new release offers, we are delighted to invite you to attend the 2-day **Informix 11.7 Roadshow** that will be held on **March 21 & 22**, at **IBM, Technical Exploration Center, Hillside Building, 4111 Northside Pkwy, Atlanta, GA 30327**. There is no charge for this event.

In this event, you'll get a full explanation of all the latest technologies and features including Informix Flexible Grid, Informix Automatic Storage Provisioning, application development enhancements, migration assistant, instance cloning and more. Several hands-on labs will give you the ability to use some of these technologies in real-world conditions. Here is the tentative agenda:

Day 1 – Monday, March 21

- Introductions and logistics
- Informix Marketing overview
- New general database and Data Warehouse features
- Informix Flexible Grid and Hands-on lab

Day 2 – Tuesday, March 22

- Application development enhancements
- Backup to Cloud
- New Informix instance administration features
- Informix Automatic Storage Provisioning and Hands-on lab

The Roadshow begins each day at 9 a.m. and continues until the agenda is completed. IBM will provide complimentary continental breakfast and lunch each day.

To register, please contact your IBM Data Management sales or technical sales representative, or browse to <https://www-950.ibm.com/events/swgeer/swgeer06.nsf/signin?openform&seminar=kwomboe8bx47q&lang=en>

We look forward to seeing you there!
